Photos on this page by Curtis Jones & Ralph Bainbridge

Reflecting on the pictures on the previous page by Ralph Bainbridge

They say that a picture is worth a thousand words. Well I believe that is true, however because of space constraints I won't do that. The top two pictures are from this years "Gathering of the Tribes." The wedding was officiated by MJM member and Pastor Andy McIlhenny, groom William Shannon Vincent, and the bride Lisa Elizabeth Kays . William & Lisa have a child Abbigale Ann Vincent. Judith Cash Victorino Brown child of Ryan & Nicole Brown was baptized. There were 457 people in attendance. Communion was held as part of Sunday worship. I would encourage any members of MJM to attend this event!!

The remaining pictures from the previous page are from our weekend in Shanksville for the 10th Anniversary of the 9-11 Attacks. Again I would encourage any of you to visit the Flight 93 Memorial. I took 160 pictures. The cross that Barb, Fred, James Dowan, and myself are standing in front of was given to the Shanksville Volunteer Fire Company by the New York City Fire Department. The steel is from the World Trade Center. The picture to the right is from inside the Flight 93 Memorial Chapel. There is a whole volume about the role the chapel has played in this tragedy and recovery. The banner on the bottom was made by the children from the Somerset Alliance Church Pre-school. The children used their hand prints to make the banner.

Labor Day Weekend we traveled to Mystic, Connecticut, pictures are below. We ate Saturday night at Captain Scott's. It was located right on the waterfront. We had a time of praise and worship and communion Saturday evening. Sunday morning we again had a time of praise and worship on "the solid rock". The pictures below are from this adventure.

A Gathering to Remember

I met Rick Watkins at his house on Friday morning Aug. 19th to head out at 10:00 a.m., to the Gathering of the Tribes in Mount Holly, N.J. Rick is a close friend of mine, but not a born again believer yet. He wanted to go even though the event is Christian Bikers against drug and alcohol abuse. We were about 150 miles from home and making good time, when all of a sudden my motorcycle shut right down. It wouldn't start no matter what we tried, even with prayer, so I had to call a tow truck which took me and the bike to a bike shop. I rode in the tow truck with Rick following on his bike. When the truck driver got off the cell phone he told me it was his ex-wife, they were having problems communicating, I got to share some with him. We pulled into the parking lot of the bike shop just as they were locking up for the evening, so we slept under a big tent next to the parking lot. The next morning they checked my bike out and said the fuel pump had burnt out, that was on a Saturday and they said they couldn't order it until Monday and it would be in on Tuesday.

So we both hopped on Rick's bike and headed for the Gathering. We pulled in at 2:00 p.m. we had a great and loving welcome by MJM members Fred McClincy, Chris Cooter, Curtis and a couple of other members I didn't know. What was nice was looking around and seeing different Christian motorcycle organizations and secular bikers all coming together to support this fundraising event, plus all enjoying fellowship together. There sure was plenty of good food, a pig roast, burgers and hotdogs as well as side dishes. Christian bands playing all day, bike games and vendors. No matter who you struck up a conversation with they were very friendly.

We got to sit in on a wedding and the groom had a great testimony of how they that they prayed for him at the 2010 and he ask Jesus into his heart. Then we went from the wedding to a Baptism right there on the grounds. What a blessing by being there just for these ceremonies. Then to top it off George had a bon fire for us that night.

The next day we were blessed again with special Sunday service where the bands had been playing, a band came in and played worship music then George Krail gave a wonderful message, followed with everyone taking communion. George and Tina are such a wonderful couple for what they are doing with this Gathering plus all the others that helped put it together. Because my bike wouldn't be fixed until Tuesday George and Tina were really nice and let us stay with them, you couldn't find a better place to be then in such a loving and Godly home, their love for Jesus is their main focus in life, by staying their I learned that I need to go to Jesus more and to put him first no matter what. Also to speak out about Jesus, I need to get out of self and more into Jesus his word and prayer. When Tuesday came and we knew we had to go it was hard leaving such loving friends. George prayed for us and then we headed for Vermont.

In Christ's Love

Philip Guica
